DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1,3-6,8-11,13 are rejected under 35 U.S.C. 102(b) as being anticipated by Tsai 5,899,099. Tsai teaches a keyless plunger lock comprising a sleeve 6 having indicia thereon and a keyway and a lip portion, a plunger 7 having a key 72 at a distal portion thereof to engage the keyway, and spring bias 14 in the bottom of the sleeve, and wherein upon engagement and sliding of the key within the keyway against the spring bias, the indicia or plunger are rotated to engage the key with the bottom portion of the lip having a plurality of key grooves (211). Furthermore, the plunger and sleeve ends both having attachment means.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Tsai '099 in view of Hermann 4,428,211. Hermann teaches the use of a removable cap 126 on a plunger lock arrangement. It would have been obvious to one of ordinary skill in the art to modify the cap portion (end of sleeve 6) to be removable as taught by Hermann as an obvious matter of design choice.

5. Claims 2, 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tsai '099 in view of Dean 254,284 or Pursell 457,959. Tsai fails to teach the indicia on the plunger instead of the sleeve. Both Dean and Pursell teach plunger lock mechanisms wherein the plunger carries the indicia. Accordingly, it would have been considered an obvious reversal of parts to have the plunger of Tsai carry indicia as taught by either Dean or Pursell as an obvious matter of design choice.

Response to Arguments

6. Applicant's arguments filed 9/9/04 have been fully considered but they are not persuasive. As set forth in the rejection above, it is maintained that Tsai teaches the elements as recited in independent claims 1-3, including a circumferential lip that is "fixedly mounted" within the sleeve and "including one known indicium". With regard to the lip, it is clearly shown in Figure 3 of Tsai that one of the disks 5 having the lip portion to engage the key is fixedly mounted within sleeve 6. With respect to the indicium, since Applicant has not amended the claims to recite "consisting of" language, which would be more limiting, the recitation "including one known indicium" does not define over

Tsai, which discloses multiple indicia, since it does not preclude the fact that Tsai does disclose one indicium. Accordingly, claims 1-13 stand finally rejected.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
